PROFESSIONAL SUMMARY

Full-stack web developer skilled in React, Laravel, and AWS, with experience in system analysis, design, and deployment of business applications. Adept at collaborating with teams, troubleshooting technical issues, and ensuring that all deliverables adhere to coding standards and IT quality criteria.

EXPERIENCE

HRWEB Inc.   **March 2024 – Present**
Junior Programmer   General Trias, Cavite

- Performed system analysis, database design, and full-stack development for financial applications using Laravel 12, React, Tailwind CSS, and Inertia.js.
- Developed responsive, user-friendly interfaces and dynamic features with React and TypeScript, improving overall UX.
- Implemented secure authentication, real-time data visualization, and optimized backend queries for performance.
- Conducted unit and integration testing to ensure code quality and system stability.
- Assisted in deployments and troubleshooting across Dev, UAT, and Production environments.
- Collaborated with business analysts to document technical requirements and system configuration updates.
- Ensured all modules complied with internal coding standards and IT policies.

Amazon Web Services (via Edukasyon.ph)   **Sept 2023 – Jan 2024**
Cloud Engineering Trainee (AWS re/Start Program)   Remote

- Designed and deployed cloud infrastructure (EC2, RDS, S3) simulating production systems.
- Applied AWS Well-Architected Framework principles to improve security, reliability, and compliance.
- Automated tasks using Python scripts and implemented monitoring via CloudWatch.

Dei Gratia School Inc.   **Mar 2023 – Jul 2023**
IT Support Intern   Tanza, Cavite

- Maintained and troubleshooted network and system hardware/software, reducing downtime.
- Supported users and improved daily IT operations efficiency.

PROJECTS

- **School Cashier Management System (Laravel + React + Inertia.js) –** Developed a full-stack cashiering system for a school that handles student billing, payments, and reports.
- **AWS Cloud Resume Challenge** – Built a serverless personal resume website using AWS Lambda, API Gateway, and DynamoDB, deployed with Terraform and CI/CD.

EDUCATION

**Cavite State University**   **Sept 2023**
Bachelor of Science in Information Technology   Cavite
